

RAW

HIRE

CAPABILITY STATEMENT 2024

“ RAW HIRE – setting the standard in long-term fleet hire and vehicle sales across Western Australia and beyond. ”

THE RAW TRUTH

Supplying quality, late-model fleet for civil, major projects, mine-sites, quarantine zones and remote projects.

**KIMBERLEY | PILBARA | GASCOYNE | MID-WEST
WHEATBELT | PEEL | BARROW ISLAND
PERTH METRO | SOUTH-WEST
GREAT SOUTHERN | GOLDFIELDS-ESPERANCE
NORTHERN TERRITORY | QUEENSLAND
AND BEYOND...**

Raw Hire has been supporting our vehicle hire needs for many years. Their fleet of quality new vehicles provides us with many options to choose from in one location. They continually improve their vehicle builds, like fitting composite trays to reduce wear & tear, and provide better fuel economy.

JAX Engineering Pty Ltd

COMPANY OVERVIEW

Raw Hire is a privately owned West Australian fleet hire company, offering the ultimate in compliance, flexibility, and quality for both the resource and civil sectors.

For more than 25 years, Raw Hire has been a proven supplier of choice for projects from the South West, to the Kimberley, and across Australia, with a focus on providing professional, responsive service.

Raw Hire's compact and experienced team is committed to ensuring professional and valued partnerships with their clients. Every customer is assigned a dedicated customer service coordinator, ensuring seamless communication and operational management.

OUR VALUES

PROFESSIONAL

We expect and deliver excellence in everything we do.

AGILE

We pride ourselves on our responsiveness, from enquiry to mobilisation and beyond.

COLLABORATIVE

We work alongside our clients to ensure a seamless experience at every stage.

“Raw Hire is locally owned and proud to be a valued contributor to many sporting, cultural, and community organisations across the Pilbara and wider Western Australia.”

STRENGTHS

Raw Hire understands the importance of having reliable, late model fleet for any project. It's why every light vehicle is replaced at three years old or 100,000 km.

Full scheduled servicing is included with every hire. No additional fees or hidden costs. While for onsite servicing, service kits can be supplied to clients.

Because we understand safety and compliance are of the utmost importance, every Raw Hire vehicle is specified to the highest level of mine specification.

Customised fleet is a specialty of Raw Hire, with the seamless fulfillment of vehicle requirements specific to either location or project.

Raw Hire provides a streamlined and efficient process for the **mobilisation** of fleet from its point of origin, to site, and back again.

Supporting companies in **growth and expansion**, Raw Hire can procure and mobilise fleet across Australia, reducing risk by continuing valued and trusted working partnerships.

The Raw Hire team has a comprehensive understanding of the complexities of off-shore locations and will ensure vehicles are specified to meet all requirements including quarantine and safety before mobilisation.

“ Through quality planning and forecasting we have confidence in an end-to-end service vehicle provider that offers a point of difference, as we need to ensure that the assets are being utilised and cost recovered to the equipment's full potential, minimising down time.”

Stephen Easterbrook
Managing Director, Bright Pty Ltd.

In-Vehicle Monitoring Systems (IVMS) are a standard feature on every new Raw Hire vehicle, providing essential data capabilities.
